Its been long time the stores before school science labuan under the auspices of the MAJLIS PERBANDARAN LABUAN abandoned and not fully functional. only few stores just open. there are some stores hold closed while already taken. Hopely MPL take action on this matter. It is because, there are many other people who want to develop and fully funtional the place. Do not let other people do not have the opportunity to do business there. I'm also would like to run the business there and make the place functional.

Thanks and Regards,

Aznieh
