Petronas provides supplies for poor kids

Petronas Chemicals Group (G) distributed school supplies for deprived schoolchildren, through its annual back-to-school drive.

At the event, Chief Executive Officer of Petronas Chemicals Methanol, Mahadzir Rani said the program was part of Petronas' efforts to support human capital development in communities where they operate.

"As part of our Corporate Social Investment programme in education to improve academic capabilities in students as well as enhance creative teaching skills among teachers living in areas of its operations," he said.

Mahadzir added that it also aimed to support the government's efforts to help improve the academic performance of rural schoolchildren, especially in English, Science and Mathematics.

For this year, the back-to-school pro-

gramme was held in collaboration with Media Prima Berhad's Malay daily, Berita Harian, in conducting Mathematics and Science workshops for students and teachers from 17 primary schools.

The annual programme was held at the Multipurpose Hall of Petronas Chemicals Methanol Sdn Bhd.

It was all smiles when the students received the school essentials from Labuan Education Representative Mohd Nizam

Petronas provides supplies for poor kids

LABUAN: Petronas Chemicals Group Berhad (PCG) distributed school supplies to 200 underprivileged schoolchildren, here, through its annual back-to-school programme.

Speaking at the event, Chief Executive Officer of Petronas Chemicals Methanol Sdn Bhd, Mahadzir Rani said the programme was part of Petronas' efforts to promote human capital development in the communities where they operate.

"This programme was part of our Cor-

porate Social Investment programme in education to improve academic capabilities in students as well enhance creative teaching skills among teachers living in areas of its operations," he said.

Mahadzir added that it also aimed to support the government's efforts to help improve the academic performance of rural schoolchildren, especially in English, Science and Mathematics.

For this year, the back-to-school programme was further enhanced by PCG's

collaboration with Media Prima Berhad's Malay daily, Berita Harian, in conducting Mathematics and Science workshops for students and teachers from 17 primary schools.

The annual programme was held at the Multipurpose Hall of Petronas Chemicals Methanol Sdn Bhd.

It was all smiles when the students received the school essentials from Labuan Education Representative Mohd Nizam Yassim.
